

# Interview Test

PHP Programmer

## Task

You are required to develop a simple application that can populate data from evaluation-20190711.json into a HTML table and also can be exported to CSV.

### Sample HTML Table

Name	Age	Address	Working Status	Action
Shahrel Rafiqin	20 years	Kampung Dusun	No	<a href="#">Export CSV</a>
....	....	....	....	....

### Notes

- Structure and design can be customised based on your best knowledge.
- Datetime in the JSON file is in UTC, please make sure that the output is in Asia/Kuala\_Lumpur.

### Sample CSV Output

Title	Test	Score	Evaluated At
TNBR-1	test_1	56	12/01/2019
TNBR-1	test_2	75	12/02/2019
....	....	....	....

### Notes

- Datetime in the JSON file is in UTC, please make sure that the output is in Asia/Kuala\_Lumpur.
